

Mount Tugwell Trail Zone

Trail ID	Status	Length	Difficulty	Style	Elevation Max	Elevation Min
09	Proposed	10.5 km	Intermediate	Cross country	805m	378m

Trail Objectives

Primary Objectives	Narrative
Challenge Nature Escape	Tugwell Climb is the signature climbing trail of the Warburton Mountain Bike Destination Project. The trail is 10,500m long and climbs through the tall forests on the north western slopes of Mount Tugwell. The trail starts with a series of 18 stacked switchbacks. The trail continues to climb up Mount Tugwell using, at different times, a number of historic tram tracks. The gradual climb takes riders through a series of amazing wet forest gullies and across steep slopes of mountain ash forests to the summit of Mount Tugwell. This trail is aimed at mountain bike riders of with intermediate to advanced skills.
